

## Transoft Solutions Gears Up for Autodesk University 2009

*Attendees: Visit the Transoft Solutions booth 548 for new software presentations and take part in the AutoTURN Challenge*

### **FOR IMMEDIATE RELEASE**

**November 23, 2009 – Vancouver, BC, Canada**

Transoft Solutions, developers of industry leading CAD-based design software for the engineering and architectural communities, will be attending the Autodesk University (AU) 2009 Annual User Conference and Exhibition at the Mandalay Bay Resort and Convention Center in Las Vegas on December 1 - 3, 2009. Attendees of AU are encouraged to visit Transoft Solutions booth 548 to see the latest software developments set for the upcoming year and to try their hand at the AutoTURN Challenge.

“AU has always been a constructive event for us and we are excited to be there again this year,” says Noel Dolotallas, Vice-President of Marketing and Sales. “AU is an opportunity for us to show the AEC [Architecture, Engineering, and Construction] professionals attending how our software can help them, especially during these difficult economic times.”

Transoft Solutions will be exhibiting the full line of productivity-enhancing design software including a sneak peek into the upcoming new version release of AutoTURN set to be released in early 2010. Also showcased at the event will be the new traffic sign planning software, SIGMA; the innovative roundabout design software, TORUS; and the recently version releases of AeroTURN and AeroTURN Pro 3.0. Representatives will be conducting demonstrations as well as providing further information about Transoft Solutions’ products for booth visitors, while personalized presentations are also available by request.

The AutoTURN Challenge, a radio controlled truck and trailer course, is also returning to Autodesk University this year. Visitors to the Transoft Solutions booth can enter the AutoTURN Challenge and have their driving skills tested to the utmost as they negotiate the truck around a timed obstacle course. The best time will receive the grand prize of an Asus Eee® PC which will be awarded on the concluding day of AU 2009.

To schedule a personalized demonstration during Autodesk University, contact Transoft Solutions directly by emailing [info@transoftsolutions.com](mailto:info@transoftsolutions.com) or by calling 1.888.244.8387. For further information about Transoft Solutions suite of productivity enhancing tools, training solutions, to download free software demos, or to sign up for web-based demonstrations, please visit [www.transoftsolutions.com](http://www.transoftsolutions.com).

### **About Transoft Solutions**

Established in 1991, [Transoft Solutions Inc.](http://www.transoftsolutions.com) develops the most thoroughly researched and innovative CAD-based software for the engineering and architectural design communities. As an Autodesk Developer Network Professional and Bentley Developer Network Commercial member, [Transoft Solutions](http://www.transoftsolutions.com) continues to deliver software second to none. Known as a world-wide industry leader, Transoft Solutions suite of productivity enhancing solutions have become the trusted de-facto standard for over 90% of the Top 100 ENR AEC firms, 85% of North American departments of transportation, and regulatory agencies including AASHTO.
